### LETTER OF APPRECIATION

I wish to express our immense gratitude for the donation and installation of a 10 KVA solar power system in the office of the Africa Centre of Excellence in Future Energies and Electrochemical Systems (ACE-FUELS), Federal University of Technology Owerri, Imo State.

Your continuous and unflinching support especially in this regard, has brought the Centre closer to the realization of its core research focus which is clean/renewable energies. I must say that the plant efficiency and output is better than we anticipated and has greatly reduced the Centre's operation cost, as we strive to give the best to our students and the FUTO community at large.

On behalf of the Management Team, staff and students of ACE-FUELS, I most sincerely thank and appreciate the Ndukwe Osogho-Ajala Foundation for making this milestone achievement possible. Our earnest prayer is that the foundation becomes a gold standard in our emerging society as it continues to make significant impact across the globe.

Sincerely,

**Prof. E. E. Oguzie**

Center Leader, ACE-FUELS
